

TERIS Hires Jason Christian as Operations Manager for its Growing Northern California Region

Responsibilities include supervision of ESI, Hosting/Imaging, Traditional Services, Client Services and Forensics departments

PALO ALTO, CA – November 21, 2011 – [TERIS Silicon Valley](#) announced today that it has hired Jason Christian as Operations Manager for its Northern California region. Christian is responsible for the supervision, development and constant improvement of the ESI, Hosting/Imaging, Traditional Services, Client Services and Forensics departments for the TERIS Silicon Valley and San Francisco offices. He works directly with directors in each department to develop programs that increase operational efficiency.

“Our presence in Northern California has nearly doubled in the past year, which has created new operational challenges and opportunities for us,” said Kevin Brooks, Executive Vice President, TERIS Northern California. “Jason's experience with managing large EDD departments and his success with overseeing the resources, processes and overall workflow of legal document processing for clients makes him a tremendous asset for TERIS. Our clients will continue to benefit from our expanding capacity and improved operations.”

Jason Christian has experience working with clients to develop collection strategies, best practices and mitigate possible risks.

Christian has more than seven years' experience working in the legal industry. Most recently he was EDD Operations Manager for SFL Data, where, among other duties, he managed a team of 20 EDD technicians and worked with forensics, data hosting and project management teams to assure a smooth transition for each project between departments.

Prior to joining SFL Data, Christian worked with D4 Discovery and Digital Strata. He gained valuable experience working with clients to mitigate possible risks during collections and to develop collection strategies and best practices.

Christian received his Bachelor degree from Liberty University in Lynchburg, Virginia. His certifications include Guidance Software (EnCase Computer Forensics I and II) and Clearwell Systems (Clearwell E-Discovery Platform).

ABOUT TERIS
